SUMMER

Thank you for subscribing and for your support to the Bryson and Baker Batt Foundation!

We have been a 501c3 for OVER a year now. Time has been flying by, along with summer. Summer is a time to slow down and unwind with family and friends enjoying the sunshine and warmth.

We've been doing exactly that over here, but the foundation keeps us on the move!

Read on to see recent event highlights, donation updates, new hospital and board member update, and our upcoming Handprints on the Heart Gala. 190 tickets have been sold so far - 35 spots left! We'd love to see you there!

About Us

For those that are new here or just want to know a little bit more about who we are - The Bryson and Baker Batt Foundation is a 501c3 nonprofit based in Michigan. The mission of the foundation is to support families in the NICU (Neonatal Intensive Care Unit) and those that have lost their baby.

Our hope is to provide some comfort, love, and the feeling of not being alone when a family is in the NICU and faced with the unimaginable. We do this through your generous donations. We donate NICU welcome packages, sunshine bags, memory boxes, and holiday love packages.

Current Donation Counts

340 NICU Welcome Packages

120 Memory Boxes

280 Sunshine Bags

89 Holiday Love

RECENT EVENTS

JUNE 17

We supported the Run, Walk n Roll 5K in Grosse Pointe in June. This walk benefits palliative care for Mott Children's Hospital.

Palliative care plays a large role for families in the hospital, especially the NICU, when a child is diagnosed with a terminal illness. Palliative care ensures the child and the parent's wants and needs are being accounted for. Both physical and emotional well-being is so important when you're at the hospital and palliative care helps provide extra love and comfort.

RECENT EVENTS

JUNE 24

The Goodfellow's hosted a neighborhood corn hole tournament that benefits their HOA. They donated half the proceeds to the foundation!

It was a fun morning playing corn hole with lots of raffle baskets to win, along with some 50/50s.

It was great meeting new people, talking about the work we do and why we do what we do.

THANK YOU Sam, Noah and team for hosting this event!

Larger Donations

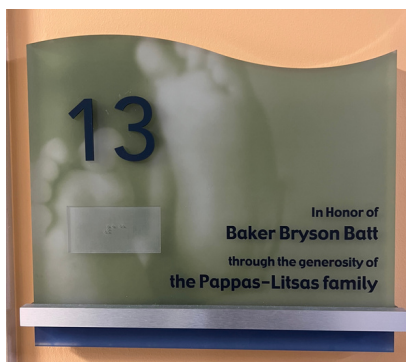

When we stayed in the NICU at Children's Hospital of Michigan with Bryson we were in a positive pressure room - Room 17. We didn't know what that term meant or what it would feel like until we were there every day and every evening. It was our second home and Bryson's home.

The room has no windows and is in its own hallway with no other rooms. So this means no sunlight, no view, no gazing out the window to pass some time and escape and no people watching in the halls. When you are sitting alone in your child's room, it can get very lonely and it's not easy to do that day after day.

In honor of Bryson's 3rd birthday, we donated a large window canvas that will hang in his NICU room to brighten the room for future families.

Dr. Pappas was there on Baker's birthday earlier this spring to see us and receive his birthday donations. She generously donated a plaque in his honor to be displayed outside his NICU Room 13. The tears and emotion during this visit were a big reminder of the boys' impact on others, our love for this NICU team and the kind heartedness of others.

Baker will now forever be a part of the St. John NICU and a constant reminder of his strength and unconditional love story. Thank you Dr Pappas!!

New Hospital Partnerships

We traveled to Traverse City to donate Bereavement Bags and NICU Welcome Bags to Munson Medical Center. They didn't have this kind of support for their NICU and were very appreciative. Munson will continue to receive our donations.

They recently started working on a new bereavement program and will be using our bereavement bags.
